SUMMARY

UI/UX designer with 5+ years of experience designing AI products, B2B SaaS dashboards, websites and mobile apps for startups and companies in the USA, UK, EU, Singapore and Saudi Arabia. Currently Lead Product Designer for a B2B procurement platform, working directly with leadership from strategy to developer handoff. Alongside full-time roles, worked with 350+ international clients and companies worldwide. Known for turning complex workflows into simple, consistent interfaces backed by research and scalable design systems, and uses AI tools like Claude to research, prototype and ship faster.

CORE SKILLS

Product & UX: Product strategy, user research, competitor analysis, personas, journey mapping, information architecture, usability testing

Design: UI design, design systems, interaction design, high-fidelity prototyping, responsive web, iOS & Android, developer handoff

Domains: AI products, B2B SaaS & procurement, CRM, e-commerce (B2B/B2C), EdTech, social platforms

Tools: Figma, FigJam, Framer, Webflow (basic), Adobe Creative Suite, Claude (AI-assisted design, research & prototyping), generative AI tools, HTML5, CSS

EXPERIENCE

Buyamia International | Singapore (Remote) Dec 2025 – Present

Lead Product Designer

- Designed the entire B2B procurement platform end to end as the lead and sole product designer, from research and information architecture to final UI.
- Work directly with the leadership team to turn business goals into product features and a clear product roadmap.
- Designed dashboards for order tracking and procurement management, simplifying high-volume transactions for business buyers.
- Designed marketing landing pages that present the platform's value to new business partners.
- Built the design system, high-fidelity prototypes and developer-ready specs used by the engineering team.

FormNation LLC | New York, USA (Remote) Jul 2022 – Present

UI/UX Designer

- Core designer for a US design and development company, delivering a large volume of client projects across industries.
- Designed DTC (direct-to-consumer) brand websites and e-commerce stores, from brand-led visuals to conversion-focused product pages.
- Designed AI products, mobile apps, websites and CRM systems for the company's startup and business clients.
- Worked with lead designers and engineers from concept to launch, handling multiple projects in parallel on tight deadlines.

Neuture.ai | Rome, Italy (Remote) Jun 2024 – Nov 2024

UI/UX Designer

- Key designer for a student-services platform covering university admissions, scholarships and accommodation; the company raised €10M in funding during this period.
- Ran user research, ideation, sketching and prototyping to design features aligned with the CEO's product strategy.
- Created and maintained the design system used across all products, keeping the experience consistent.
- Delivered production-ready files and supported developers during implementation.

Live product: neuture.ai

Lobab | Riyadh, Saudi Arabia (Remote) May 2022 – Jul 2022

UI/UX Designer (Design Lead)

- Led the design team for a book-summary app on iOS and Android, owning wireframes, prototypes and final UI.
- Researched user needs to guide design decisions and managed design delivery with developers.

Live apps: App Store • Google Play

LowlandTech | Amsterdam, Netherlands (Remote) Jan 2022 – Apr 2022

UI/UX Designer

- Designed wireframes, prototypes and visual designs for a social media platform.

Everything Zimbabwean | UK (Remote) Aug 2021 – Dec 2021
UI/UX Designer (Mid-Level)

- Designed B2B and B2C e-commerce journeys, from wireframes to final UI.
